

# Nursery & EYFS SEND Newsletter

Summer 1: April 2017

## Welcome Back!

We all hope you had a lovely Easter break and that you are looking forward to this next 'busy' half-term in School. It is lovely to see the children looking excited and ready to learn. Please ensure that your child is wearing the correct uniform at all times. Furthermore, please ensure that their name is in **all** of their clothes and coats. Most children wear the same sized clothes and can easily get mixed up.

We are currently running low on spare clothes for the children to use when accidents happen. If you have any old uniform, pants and socks at home that you no longer need we would appreciate your kind donation.

If you have any concerns or questions regarding your child, please do not hesitate to speak to a member of staff.

Mrs Hill & Mrs Thornton

As we move into the Summer term, the children are going to be exposed to stronger sunlight. Please can you be prepared to protect your child during the upcoming sunny days by applying suncream to your child's skin before they come to school.

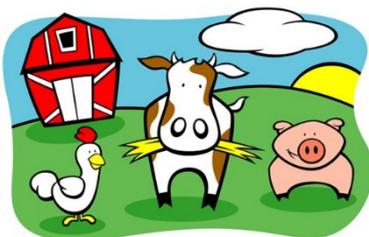

We have Pennyman caps in school for the children to wear during playtimes and lunchtimes also, children are welcome to bring their own clearly labelled with their name. School provides water throughout the day.

## TOPIC REVIEW

Last half term our topic was **Are Eggs Alive and On The Farm:**

The children have thoroughly enjoyed learning about Farm Animals naming the mother and their young.

The children have described some of their most memorable moments of the topic as visiting the farm and handling the animals.

## Curriculum: We are learning about buildings and our current topic is How Does This Building Stay Up?

We will be finding out about different types of houses, and talking about who lives in our own home. We will be discussing the different materials used to build a house in both this country and others. Looking specifically at windows, doors, roofs etc and what materials they are made out of.

Our Traditional Tale will be the Three Little Pigs and we will be making houses using sticks, straw and bricks. We will talk about which materials are the strongest and will carry out mini investigations.

As you walk around the local environment with your child please can you see if they can name different types of buildings eg flats, bungalows, houses, shops etc.

Thank you for your continued support.
